FAQs on Requesting Detailed Group Changes and Confirmations

1. What is the lead time needed to request detailed changes for a large group?

The lead time required varies, but for complex changes to large groups, you should call 📞+1(888) 796-1512 as far in advance as possible. Ideally, provide several days' or weeks' notice, especially for changes during peak travel periods. This gives the JetBlue group agent time to coordinate block space on new flights, calculate fare differences, and reissue multiple tickets. Last-minute detailed changes for large groups are challenging due to limited seat availability. The agent will give you a realistic timeline based on your specific request and group size. Early communication is the single most important factor in successfully executing detailed group changes.

2. Can I request to change some group members' itineraries but not others?

Yes, you can request selective changes within a group booking. To do this, call 📞+1(888) 796-1512. A JetBlue agent can split the group Passenger Name Record (PNR) to isolate the

travelers needing changes, modify their itineraries, and then potentially re-link the bookings for management. For example, if half a wedding group is staying longer, the agent can change their return dates while keeping the rest of the group's original schedule. This requires precise agent intervention to avoid inadvertently changing everyone. Discuss your exact needs with the agent, and they will recommend the best technical approach to achieve your selective change goals.

3. How are detailed change requests documented for corporate accounts?

For corporate accounts, detailed change requests are documented in the reservation notes and reflected in the updated itinerary and receipt. To ensure proper documentation, call 📞+1(888) 796-1512 and inform the agent of your corporate account number. The agent can notate the reason for the change per corporate policy and provide updated documentation that includes the original and new fare details for auditing. They can also send confirmations to a designated corporate email address. This creates a clear audit trail for travel managers, ensuring compliance and simplifying reconciliation. The agent ensures the corporate account's specific documentation requirements are met.

4. What if a detailed change affects our group's seating together?

If a detailed change (like a flight time change or aircraft swap) affects your group's ability to sit together, call 📞+1(888) 796-1512 immediately. A JetBlue agent can access the new aircraft's seat map and attempt to regroup your party. They may need to move other passengers or place you on a waitlist for adjacent seats. The agent will work to find the best possible seating solution under the new constraints. It's important to address seating as part of the change process, as post-change availability is often better than waiting until check-in. The agent prioritizes keeping groups together as a core part of customer service.

5. Can I get a written summary of all detailed changes made?

Yes, you can request a written summary or a revised group itinerary that outlines all changes made. To obtain this, call 📞+1(888) 796-1512 after the changes are complete and ask the JetBlue agent to email you a consolidated summary. This document should list each passenger, their original and new flight details, any fare differences, and new seat assignments. This serves as an official record for the group leader, corporate travel department, or for your own files. The agent can generate this from the system, ensuring you have a clean, professional document that captures the full scope of the modifications executed for your group.
