# Frequently Asked Questions (FAQ)

## **Q1. Do I need an activation key to activate McAfee?**

Not always. If you purchased McAfee online, activation may be linked to your McAfee account. Retail purchases usually require an activation key.

## **Q2. Can I activate McAfee on more than one device?**

Yes, depending on your subscription plan. Some plans allow protection for multiple devices using the same account.

## **Q3. What should I do if my activation key doesn't work?**

Double-check the code for errors. If it still fails, contact McAfee customer support for assistance.

## **Q4. Is it necessary to uninstall other antivirus software first?**

Yes. Having multiple antivirus programs can cause conflicts. Remove any existing antivirus before installing McAfee.

## **Q5. How do I know if McAfee is working properly?**

Check the McAfee dashboard. A green status or “Your device is protected” message confirms it is active.
